PAINT
A LUXURY NAIL AFFAIR
— NAIL BAR —

OPENED SINCE: NOVEMBER 2020

**OWNER:
KAITLIN ANDREWS**

When are you opening the new Solon location?

We are having a ribbon-cutting on Nov. 16, 2020, and our Grand Opening celebration is Nov. 18. We are located on 6134 Kruse Drive near other Solon favorites like Barre 3, Orange Theory and V/O MedSpa.

PAINT Nail Bar has locations across the country. What made you decide to open one in Solon?

It is incredibly humbling and exciting to be opening a second PAINT Nail Bar location in my hometown of Solon. My husband and I opened our Nashville location in the fall of 2018, and when the opportunity arose to open a second location, it was my dream to be near my parents and best friend. Although our primary residence is Nashville, I'm honored to be a part of a place so near and dear to my heart.

To view all of the services we offer and/or to book an appointment, visit <https://go.booker.com/location/PAINTNailBarCleveland>.

We hope to see you soon!

Your products are described as “nontoxic, eco-friendly and fume-free.” What makes these products health and planet conscious?

Not only is PAINT Nail Bar focused on client experience (think mimosas) and employee engagement, we pride ourselves on educating our clients about nail health and nail care. Our product lines are environmentally friendly and free of harsh chemicals found in common polish brands, such as formaldehyde, camphor and toluene – to name a few. If you have thin, brittle and/or discolored nails, we have the answers and are dedicated to helping clients achieve their 'Instagram-worthy' nail goals.

What makes PAINT Nail Bar special?

At PAINT we understand that we are not a 'nail salon,' although we do nails. We do not look, feel or smell like a traditional nail salon. From our custom-built furniture to our odorless environment, unparalleled staff development and engagement strategies, nails may be the trade, but relationships and client experience are the business. Our objective is to ensure that at the end of every service, every client feels that going anywhere other than PAINT, the standard having been set, would not be an option.
