What made you decide to open in Solon?

There was never a thought to open our business anywhere but Solon. We have been Solon residents for 10 years now and love our community. We felt that Solon could use a great spot to meet up with friends, family and connect new people. We have three kids in the Solon City School District and look forward to giving back to the schools, the school programs and the community. Thankfully, the community has expressed great support for a local coffee shop and our family believed in us and agreed to partner up with us in this amazing journey.

How has COVID-19 impacted the set-up of your Heritage Coffee shop?

In order to ensure the safety of our customers and staff, all of our seating and tables are sealed wood, metal or a vinyl to assure it can be cleaned thoroughly and sanitized regularly. We have spaced out our seating and will only have 50% occupancy. We have assured there is plenty of room in the isles and designed foot traffic to be minimal for to-go orders. Customers can use our app for no contact ordering and curbside pickup.

How can the community best support you?

Come to our Coffee shop and explore all of our amazing options. We have the best coffee, tea, pastries and environment to enjoy. We look forward to serving you and being a part of your daily life. I have always felt that a stop at a coffee shop to see a smile, get good service and great coffee can brighten and enhance your day.

As you just opened, what do you want the community to know?

We source as many of our products as we can locally to support other local businesses. So, when you support Heritage Coffee, you are supporting other local businesses as well.
