

SOLON BUSINESS SPOTLIGHT

**OPENED SINCE:
2019**

33650 Aurora Road, Solon OH 44139
SavvEraTutoring.com

**OWNER NAME:
RAVINDER SANDHU**

When did you open your business in Solon?

September 2019

Why did you choose to locate in Solon?

I live in Solon, therefore I wanted to invest in my hometown.

What types of services do you provide?

- Private K-12 tutoring in reading, math, English, science, and social studies
- Test prep including SAT, GED, PSAT, GED, and AP courses
- Enrichment classes twice a week in small group sessions
- Camps during winter break, spring break and summer break
- Transportation from school to the center
- Miscellaneous services such as foreign language learning course for Hindi and Punjabi, driving license test preparation in three languages and citizenship test preparation in three languages
- New preschool and Pre-K programs with a limit of 6 students max and the option of early day and extended day

What makes your business different from other tutoring facilities like it?

My center has expanded from being a tutoring center to a learning center because we offer learning opportunities for all age groups. There is no other learning center that offers the services we provide at economical rates without losing the quality component. My business is not a cookie-cutter service. It is very personalized to each student's learning style and need. All tutoring options are offered in-person or online. Most importantly, in-person tutoring is offered in private rooms to eliminate all distractions.

What else would you like to feature?

I provide all the tutoring myself and I have a Ph.D. in education, a Master's and bachelor's in science and certifications in early childhood education, adult learning and development and online teaching. We offer sibling discounts and referral discounts. I would like everyone to come look at our place or visit our website at SavvEraTutoring.com and give our services a try. You will not be disappointed!
