

SOLON BUSINESS SPOTLIGHT

6199 SOM Center Rd.
Solon, OH 44139
www.carterlumber.com

**OPENED
SINCE 1969!**

What services do you provide your customers?

We can assist you on your home improvement projects from start to finish. Our in-store salespeople are knowledgeable about a wide range of projects and they can help you find the best products to get it done right. We offer delivery services for all of our products, so you don't need to worry about having a vehicle available to bring your purchases home.

We also have in-store kitchen designers who can take your kitchen dreams and turn them into reality. Finally, we have contacts with most of the professional builders and remodelers in the area, so if you're looking for some help on your project, it is very likely that we can refer a contractor we trust to help you.

How are you different from the competition?

Our employees are what separates us from the competition. Most of the people working here have worked in this industry for a long time. That means that when you come in with your ideas for a project, the people you're working with have worked on similar projects in the past and can use their years of experience to help you. We're also a small store, meaning that each time you come to visit, you'll see the same friendly faces. That's another thing you can't get from other stores.

What can Solon residents do to support your business during this time?

Give us an opportunity on your next project. As the big box stores have become more prevalent in our area, homeowners often overlook us when it comes time to build a deck, remodel their kitchen or add an addition. While a majority of our business does come from professionals, we still love helping homeowners who want to improve their homes and we feel like we can do that better than the big box stores.

What else would you like Solon residents to know about your business?

While lumber is in our name, we sell much more than that. We can get just about anything for your home improvement needs including windows, doors, millwork, kitchen cabinets, roofing, siding and many other product lines from the nations' most well-known brands.
