When did you open your business in Solon?

Summer of 2019

Why did you choose to locate in Solon?

This is a relocation of our original restaurant in Bainbridge. Solon has always been a target market for our growth. The Solon community embraces family-operated, cooked-to-order restaurants. This was an opportunity for growth of our catering efforts, and we wanted to encourage people to visit Solon restaurants, rather than go to other markets for high quality options. Solon has all of the makings of a "Foodie Market." It just needed more options, and we're proud to be a part of that growth for the city.

What is your most popular specialty or dish?

By far, our Classic Gyro (pronounced: "Yee-Ro") is the most popular. However, all our menu items are high-quality. Our seafood is wild caught and our greens are locally grown. Our burger is a Best in Ohio winner that also topped the list for Cleveland and recently won Best in the County.

What makes your business unique?

We are stubborn in how we prepare meals: great sources, attention to detail and a very clean environment. We actually COOK food here. We don't even own a microwave!

What else would you like Solon residents to know about your business?

We are a family business that is family run. We love Solon and count moving here as one of the best decisions we've made for our company.

Are you offering any specials or fun events now or in the near future?

We've recently added an in-house delivery service. This offers a better value without the typically unsanitary circumstances of 3rd party delivery services. Also, we expanded our catering options.
